

PRIVATE LESSONS

Campuses may allow private music tutors to conduct lessons on campus during school hours and after school. Private lesson tutors shall sign a "building use" contract and shall pay the District the required usage fee. Private lesson tutors shall collect their own fees and give the student a receipt for any money accepted.

Upon application to and approval from the appropriate music teacher, a student may take a 30-minute private music lesson, once a week, during his or her scheduled music class or lunch period. Students may not be dismissed from any other class in order to take a private music lesson.

Private lessons shall not be required for admission to any class, performing group, or student organization.

GUIDELINES FOR  
SELECTION

Since not all students will be able to schedule private lessons during the school day, the following criteria shall be used to select those eligible for services:

1. Students for whom after-school and/or evening transportation to and from school is not available.
2. Students involved in more than one extracurricular activity requiring after-school participation.
3. Students who wish to audition for District, region, and state performing groups and solo/ensemble competition.
4. Students (seniors) who will be auditioning for college music scholarships.
