Once these forms are filled out and returned to the student's home campus and the IAT has determined the need for referral, a copy of the forms are to be given to the appropriate appraisal person. The appraisal person (i.e. 504 or dyslexia) will secure permission from the parent for an evaluation, give student and parent rights, and schedule an appointment at the home campus for the evaluation.

After the evaluation is complete, the results are shared with the parents.

The results should include recommendations for accommodations for the private school student based on the results of the evaluation.
