

### **Eduphoria!** Tip #4—Important Workshop Credit Information

In the **eduphoria! Workshop** system, a participant has not completed the requirements of the course until he/she has completed the anonymous survey.. Completion of the survey not only gives instructors valuable feedback on sessions, but is required for courses that are federally funded.

Courses will be closed out two weeks after the session ends.

If you cannot tell if you have taken the survey for a course, look in the right column in your portfolio. If you see a course that has **“Registered”** next to it, you have not yet taken the survey.
